MANAKA PHUTI GIFT

SOFTWARE DEVELOPER | IT GRADUATE

South Africa | 081 274 1278 | giftphuti459@gmail.com
Portfolio: savagepg21.github.io/portfolio | GitHub: github.com/SavagePG21
LinkedIn: linkedin.com/in/phuti-gift-manaka-8707aa346

PROFESSIONAL PROFILE

Information Technology graduate with a foundation in software and web development, backed by hands-on experience supporting complex payment systems in a Tier 3 operations environment. Skilled in Java, JavaScript, PHP, SQL, and modern web technologies including Spring Boot and Angular. Brings a developer's problem-solving mindset, experience analysing logs and diagnosing root causes, and the ability to collaborate across technical teams. Seeking a software development role where I can build reliable applications, strengthen engineering practice, and contribute to user-focused solutions.

TECHNICAL SKILLS

Programming: Java, JavaScript, PHP, Python, VB.NET, SQL, PL/SQL
Web development: HTML, CSS, Angular, TypeScript, React
Backend & application development: Spring Boot, Android application development with Java
Databases: SQL, PL/SQL, database management
Automation & cloud: n8n workflow automation; Microsoft Azure Fundamentals (AZ-900)
Technical troubleshooting: Log analysis, root-cause investigation, payment-system diagnostics, PC hardware and software
Professional skills: Problem-solving, communication, teamwork, cross-functional collaboration

PROFESSIONAL EXPERIENCE

3rd Line Operations (EFT) Engineer | *Adumo (Lesaka)* | *March 2026 – Present*

- Act as a Tier 3 technical escalation point for complex merchant, payment-terminal, software, and system issues.
- Investigate transaction-routing logs and ISO 8583 messages to trace failures, identify contributing factors, and support root-cause analysis.
- Diagnose hardware, software, and connectivity issues affecting card-payment terminals and related services.
- Collaborate with developers, network teams, and external vendors to investigate incidents and coordinate technical resolution.
- Communicate findings clearly during high-priority incidents, translating technical evidence into actionable updates.

PROJECTS & INNOVATION

Unique Mobile App Project — BRICS Skill Development & Technology Innovation Competition
Participated in a team mobile-app project that earned 3rd place in November 2024.

Hackathon and datathon participation
Participated in VUT Hackathon 2025, IMB Z Datathon 2024, and Intervarsity Hackathon 2025.

EDUCATION

Diploma in Information Technology | Vaal University of Technology | Completed April 2026
Relevant study areas: software development, web development, programming, networking, database management, and troubleshooting.

Matriculation | Makgetha Secondary School | December 2022

CERTIFICATIONS & RECOGNITION

- Microsoft Azure Fundamentals (AZ-900)
- Cisco CCNA / CCNAv7 coursework (Switching, Routing and Wireless Essentials)
- Cisco IT Essentials (PC Hardware and Software)
- IBM Data Science Foundations — Level 1
- IBM Data Science Tools — Foundation
- BRICS Technology Innovation Competition — 3rd Place
- VUT Hackathon 2025 — Certificate of Participation
- IMB Z Datathon 2024 — Certificate of Participation
- Intervarsity Hackathon 2025 — Certificate of Participation
